

AN ORDINANCE

BY COUNCILMEMBERS DERRICK BOAZMAN, NATALYN ARCHIBONG, CEASAR C. MITCHELL, H. LAMAR WILLIS, IVORY LEE YOUNG, JR., DEBI STARNES, JIM MADDOX AND ANNE FAUVER

AS SUBSTITUTED (3) BY CITY UTILITIES COMMITTEE

TO AMEND CERTAIN PROVISIONS OF ARTICLE II, CHAPTER 86 OF THE CODE OF ORDINANCES OF THE CITY OF ATLANTA; TO CREATE NEW SECTIONS; TO PROVIDE FOR A PROHIBITION OF SMOKING IN PUBLIC PLACES; TO RENUMBER SECTIONS WITHIN THIS ARTICLE; TO REPEAL CERTAIN PROVISIONS; AND FOR OTHER PURPOSES.

WHEREAS, a Clean Indoor Air Act Taskforce was created in February 2003 to evaluate the adequacy of the existing City of Atlanta Indoor Air Ordinance; and

WHEREAS, the Clean Indoor Air Taskforce, based upon its research, has concluded that the following information is pertinent to the passage of an adequately researched Clean Indoor Air Ordinance; and

WHEREAS, numerous studies have found that tobacco smoke is a major contributor to indoor air pollution, and that breathing secondhand smoke (also known as environmental tobacco smoke) is a cause of disease in healthy nonsmokers, including heart disease, stroke, respiratory disease, and lung cancer; and

WHEREAS, Public Health Services National Toxicology Program and the World Health Organizations' International Agency for Research on Cancer identify Environmental Tobacco Smoke (ETS) as a human Class A carcinogen and state that there is no safe level of exposure; and

WHEREAS, the National Cancer Institute determined in 1999 that secondhand smoke is responsible for the early deaths of up to 65,000 Americans annually; and

WHEREAS, secondhand smoke is particularly hazardous to elderly persons, individuals with cardiovascular disease, and individuals with impaired respiratory function, including asthmatics and those with obstructive airway disease; and

WHEREAS, children exposed to secondhand smoke have an increased risk of asthma, respiratory infections, sudden infant death syndrome, developmental abnormalities, and cancer; and

WHEREAS, the federal Americans with Disabilities Act of 1990, which requires that disabled persons have access to public places and workplaces, deems impaired respiratory function to be a disability; and

WHEREAS, the U.S. Surgeon General has determined that the simple separation of smokers and nonsmokers within the same air space may reduce, but does not eliminate, the exposure of nonsmokers to secondhand smoke; and

WHEREAS, the Environmental Protection Agency has determined that secondhand smoke cannot be reduced to safe levels in businesses by high rates of ventilation. Air cleaners, which are only capable of filtering the particulate matter and odors in smoke, do not eliminate the known toxins in secondhand smoke; and

WHEREAS, the U.S. Centers for Disease Control and the U.S. Surgeon General have determined that a significant amount of secondhand smoke exposure occurs in the workplace. Employees who work in smoke-filled businesses suffer a 25-50 percent higher risk of heart attack and higher rates of death from cardiovascular disease and cancer, as well as increased acute respiratory disease and measurable decrease in lung function; and

WHEREAS, smoke-filled workplaces result in higher worker absenteeism due to respiratory disease, lower productivity, higher cleaning and maintenance costs, increased health insurance rates, and increased liability claims for diseases related to exposure to secondhand smoke; and

WHEREAS, numerous economic analyses examining restaurant and hotel receipts, and controlling for economic variables, have shown either no difference or a positive economic impact after enactment of laws requiring workplaces to be smoke-free; and

WHEREAS, smoking is a potential cause of fires; cigarette and cigar burns and ash stains on merchandise and fixtures causes economic damage to businesses; and

WHEREAS, creation of smoke-free workplaces is sound economic policy and provides the maximum level of employee health and safety; and

WHEREAS, the City of Atlanta("City") has determined from a review of the literature and testimony from citizens at public meetings, that smoking poses a threat to the health, safety, and welfare of the citizens of the City; and

WHEREAS, the City is authorized to adopt such ordinances or regulations for the governing and policing of the City for the purpose of protecting and preserving the health, safety, and welfare, of the citizens of the City; and

WHEREAS, the Clean Indoor Air Act Taskforce determined the existing City of Atlanta Indoor Air Ordinance was inadequate to prohibit smoking in public places and places of employment in order to protect the health and welfare of its citizens; and

WHEREAS the purposes of this Ordinance are to protect the public health and welfare by prohibiting smoking in public places and places of employment;; and

WHEREAS, the City of Atlanta seeks to regulate smoking in public places and places of employment in order to protect the health and welfare of its citizens, and

WHEREAS, the City has determined that it is in the best interests of its citizens to adopt an Ordinance that will effectively protect its citizens from the harms of second-hand smoke; therefore,

NOW, THEREFORE BE IT ORDAINED BY THE COUNCIL OF THE CITY OF ATLANTA that CHAPTER 86, ARTICLE II of the City Code of Ordinances, is hereby deleted in its entirety and replaced by the following:
